

"I really appreciate that ENMC gives the opportunity to young scientists to share one's views and research with key experts in the field. I thank ENMC and the Company Forum for giving me this privilege!"

**Benjamin Callais**, a clinical psychologist from Canada, attended the 207th ENMC workshop on respiratory insufficiency in NMD as a young scientist. He was the first young scientist who participated in a workshop through the Young Scientist programme.

## A special thanks to all our members and other supporters

ENMC Full and Associated Members:

Thanks to the continuous support of our members and sponsors we are able to facilitate and organise on average 10 workshops per year. A successful format to connect researchers, clinicians and patients and thereby facilitating collaborations in neuromuscular research.

ENMC Company Forum Members:

And many workshop-specific supporters: [www.enmc.org](http://www.enmc.org)

supporters

With the help of supporters we bring together experts from all over the world to develop treatments for rare neuromuscular diseases from bench to bedside.

Connecting People

CENTRE**

## What is the ENMC?

The mission of the ENMC is to connect healthcare professionals worldwide in order to advance progress in the diagnosis, treatment and care of people with a neuromuscular condition.

## How do we achieve this?

The ENMC organises workshops upon application by researchers and healthcare professionals who are experts in the field of rare neuromuscular disorders. Workshops take place over the weekend in the vicinity of Amsterdam Schiphol airport. During a workshop, participants share their experiences, show unpublished data, discuss research gaps and plan future collaborations to develop standards of care, launch disease registries, improve outcome measures and advance research.

## Workshop topics

Topics in 25 years ENMC workshops	%
Clinical trial readiness and outcome measures	45%
Basic research/diagnosis	25%
Care management	15%
Reaching consensus on treatment guidelines	10%
Registries or clinical databases	5%

## From bench ...

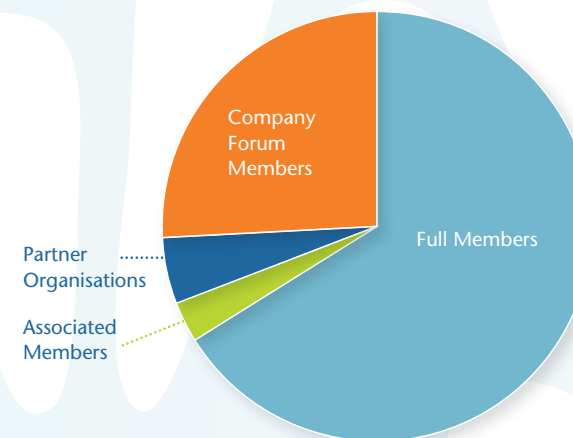

## ... to bedside!

## Sponsoring the ENMC

The core activities of the ENMC are supported by its member organisations. Individual workshops are sometimes supported by disease-specific patient organisations. However, in this time of rapid medical progress, the ENMC can only face the increasing demand for international workshops with the additional sponsoring of the ENMC Company Forum and Partner Organisations.

### Contributions of the different sponsoring organisations to the ENMC activities

## The ENMC Company Forum

The “ENMC Company Forum” supports the general ENMC activities related to workshop organisation, but also the special programmes like the Young Scientist and the Patient Participation programmes.

### What does a Company Forum membership entail?

- Contribution: at least 3-years commitment for € 5.000 to € 20.000 per year.
- Conditions: the contribution will be used to support all ENMC workshops throughout the year, regardless of the disease-specific topic.
- The yearly contribution and membership adheres to international rules of inducements and sponsorships.

### Value for your company

- A transparent contribution to the global development of treatments for people with a neuromuscular disease.
- Disclosure of membership in all ENMC publications, workshops and communications.
