

Workshops 2026

Workshop 297 30 October – 1 November 2026

A mechanism-based nomenclature and classification in Myofibrillar Myopathies.

Organisers: Prof. K. Claeys (Belgium), Prof. G. Tasca (UK), Dr L. Maggi (Italy), Prof. C. Wehl (USA).

Workshop 298 13-15 November 2026

Clinical care guidelines, outcome measures, and clinical trial readiness in Oculopharyngeal Muscular Dystrophy (OPMD).

Organisers: Dr J. Warman-Chardon (Canada), Prof. N. Voermans (Netherlands), Prof. G. Tasca (UK), Dr T. Evangelista (France).

Workshop 299 11-13 December 2026

Recommended standards for muscle pathology: from the EURO-NMD experience to a uniform and concise muscle biopsy reporting tool, and digital pathology implementation worldwide.

Organisers: Prof. E. Malfatti (France), Prof. W. Stenzel (Germany), Dr T. Evangelista (France), Prof. K. Claeys (Belgium).

Workshops 2027

Workshop 300 22-24 January 2027

Nutrition in Spinal Muscular Atrophy: improving care and harmonizing outcomes across the lifespan.

Organisers: Dr M. Nordstrøm (Norway), Prof. K. Claeys (Belgium), Prof. M. Scoto (UK).

Workshop 301 29-31 January 2027

2nd ENMC workshop on brain involvement in Duchenne muscular dystrophy: standardization and alignment of preclinical studies to advance the field.

Organisers: Prof. F. Muntoni (UK), Dr M. van Putten (Netherlands), Dr A. Goyenville (France), Dr C. Vaillend (France).

Workshop 302 26-28 February 2027

Disease phenotypes, classification, diagnostic strategies and treatments for disorders of muscle lipid metabolism.

Organisers: Prof. T. Liewluck (USA), Dr C. Acquaviva-Bourdain (France), Prof. J. Vissing (Denmark), Prof. P. Laforêt (France).

Workshop 303 12-14 March 2027

Improving the care for patients with Duchenne muscular dystrophy (DMD) during the transitional period from adolescence to adulthood. (THEMED WORKSHOP)

Organisers: Prof. T. Langer (Germany), Prof. R. Quinlivan (UK), Prof. T. Sejersen (Sweden), Prof. Dr. Hanns Lochmüller (Canada).

Workshop 304 16-18 April 2027

ENMC workshop on exercise training in slowly progressive motor neuron diseases, peripheral neuropathies and neuromuscular junction diseases; towards consensus-based recommendations on exercise prescription and outcome measures.

Organisers: Dr E. Voorn (Netherlands), Dr G. Ramdharry (UK), Prof. J. Vissing (Denmark).
